HAD STRENGTH IN SPOTS

SPASMODIC ADVANCES IN YESTER-DAY'S WALL-STREET TRADING.

Market Fluctuated Broadly, but Tended to Higher Levels-New Industrials Were Weak Exceptions.

At New York yesterday money on call was firm at 507 per cent.; last loan was 4 per cent.; prime mercantile paper, 5@51/2 Sterling exchange was firm, with actual

business in bankers' bills at \$4.87 for demand and at \$4.83 for sixty days; posted rates were \$4.84@4.84\\(and \$4.88@4.88\\(commercial bills were \$4.82%.

Silver certificates were 5814@59; bar silver was 57%c; Mexican dollars were 47%c. Consolidated California and Virginia.... Gould and Curry..... Hale and Norcross

Bar silver at London was quiet at 26%d per ounce. Yesterday's movement of prices in Wall street was irregularly upward for the raiiroad stocks, while many industrial stocks, especially of the more recently organized companies, showed symptoms of weakness. The movement of the market was by pulsations, first one and then another group of stocks taking up the advance. There was no time during the day when the general level of price kept at the top, the prices in one group giving way by the reaction before the advance was taken up by the other. Many stocks were sluggish throughout the day. Prices generally gave way after 2 o'clock under the pressure of realizing in the Leather stocks, which had been the center of the speculation all day. The earlier gains were wiped out in numerous instances in this reaction. The aggressive advance of the coalers checked the decline and rallied the market, but not to the top level. The market closed with a brilliant advance in the coalers still in force, but with the tendency irregular elsewhere in the list. The net gain in the coalers went all the way from a point in the minor members of the group to 4% in New Jersey Central. Dealings in the Leather stocks were again on an enormous scale, the common rising at one time to 25 and the pre-ferred to 82%. Other points of individual strength were Sugar, the Southern group of railroads, the Southwestern group. Iowa Central preferred, Ann Arbor preferred, Great Northern preferred, Anaconda and mejean Car, both common and preferred. The market opened with a show of strength, fleeted from London, where the fortnightsettlement developed quite a large bear eccount in Americans, so that London ught here as many stocks as were sold for that account Tuesday. Heavy realizing met the advance and the local traders were inclined to the bear side. They had some assistance from the positive weakness of a number of stocks in the industrial list. Stocks having to do with the metal industries were all heavy and Pullman, General Electric and Laclede Gas declined sharply. Of stocks of the more recently organize companies, American Hoop preferred, Union preferred and American Malting preferred dropped from 3 to 5 points on small transactions. The continued stiffness of the money rate, which ruled at 6 per cent. or above, was a discouragement to the bulls. The sudden drop to 4 per cent. late in the day, though not of much significance as an index of actual conditions, helped on the te rally in stocks. The recovery in sterling exchange, in view of the hardness of money here, and the drop in the discount rates in London is difficult to explain, especially orden in this market. There was some

strength of the market was decidedly There was a good demand for bonds at generally higher prices. Total sales, at par value, were \$2,110,000. United States fours, egular, advanced 14, and new, coupon, the bid price.

Wheat Went Below 70c, but Oversold Shorts Bid Up the Option-Corn and

CHICAGO, Oct. 25 .- Wheat got below the 70c mark for the December option again to-day, but corn came to the rescue and the loss was fully regained, December closing a shade higher, at 701/2070%c. Buying by oversold shorts strengthened corn and that commodity closed with a gain of 46 %c. Oats closed a shade higher. The strength in corn was reflected in provisions. and January pork advanced 20c and lard

Generous rains throughout the Southwest, where claims of damage by drought have been numerous recently, started wheat easy. Indifferent cables also encouraged liquidation. Trade was too dull to permit any notable break and the decline was slow. Dwight's Star, 64c; Great Falls E, 5c; Great | though sure, the market finally reaching a point 1/20%c below yesterday's closing price. In the meantime corn developed decided strength. This, together with good outside buying, started an upturn and the market continued to advance until the close, which was firm within a fraction of the best price of the day. Shorts were free buyers on the late bulge and hastened the advance. December opened 1601/c lower, at 7014@70%c, advanced to 701/2, declined to 69% @70c, advanced to 70%c and closed at 70% @70%c. Chicago received 170 cars, five of which was graded contract. Minneapolis and Duluth got 548 cars, compared with 956 for the corresponding day a year ago. Total Western primary receipts were 1,021,-000 bushels, against 1,587,000 last year. Atlantic port clearances, wheat and flour, equaled 350,000 bushels. Cash-demand, both

here and at the seaboard, was slow. Corn was active and irregular. An estimate that Nebraska's yield would amount to 244,000,000 bushels this year, or 14,000,000 more than was expected, encouraged short selling for a time; but the pressure had very little effect, as the market appeared to be oversold. Then early sellers turned buyers, and in an effort to get back for-mer holdings the price was bid up rapidly. and the market, from being rather downwardly inclined, became very strong. Cash demand was good and shipping sales large. Receipts were 355 cars. December opened 1/3c lower, at 31%c, eased off to 31%c, advanced to 31%c and closed at 31%@31%c. Sympathy with corn caused a slight advance in oats. The market was very dull and the bulk of trading consisted of chang-ing December to May. Receipts were 203 cars. December opened a shade lower, at 22%, eased off to 221/2@22%c and advanced to 22%c at the close. Provisions were weak early, but turned strong near the close, with half a dozen buyers for everything offered for sale. The

strength in corn brought about the change in sentiment. January pork closed 20c higher, at \$9.60; January lard 5@71/4c higher, at \$5.371/2; January ribs 71/2c higher, at Estimated receipts for Thursday-Wheat, 165 cars; corn, 360 cars; oats, 285 cars; hogs,

BOSTON, Oct. 25 .- The American Wool and Cotton Reporter will say to-morrow: A tre-mendous business has been transacted in the wool market since our last review. Consumers, members of the trade, speculators and exporters have purchased freely, and as we go to press some large lines are under negotiation, which will very likely result in another large record next week. English buyers are here and are negotiating for some good sized lines fo wool, in-cluding Australian wool in bond, and have already taken a considerable amount during the past ten days. About 250,000 lbs of South American cross-breds have also been sold, and further exportations of territories may be looked for at any time. Prices are strong, with an upward tendency, and the situation has been intensified by the strong advances received from Australia The sales of the week in Boston amount to 8,078,200 lbs domestic and 1,993,000 lbs foreign, making a total of 10,071,200 lbs, against a total of 8,020,000 lbs for the previous week, and a total of 2,325,500 lbs for the corresponding week last year. Sales since Jan. 1, 1899, amount to 249,045,300 lbs, against 93,466,510 lbs last year at this time.

NEW YORK, Oct. 25 .- Tin scored a signal advance in the local market to-day on a sudden in crease in demand, withdrawal of offerings, i part due to firmer cables and more satisfactory accounts from the West. Hogs Fairly Active at Slightly Better Prices-Good Sheep Stendy-Reports from Other Markets.

UNION STOCKYARDS, INDIANAPOLIS, Oct. 25.-Cattle-Receipts, 600; shipments, fair. The receipts were fair, but the quality generally was not very satisfactory to buyers and the market opened quiet, with the bidding lower for all kinds. Salesmen were asking steady prices, especially for all fat stock, and finally succeeded in disposing of that class at about quotations. Other grades were more or less difficult to sell, and generally were considered weak, if not lower. Quotations:

Local packers evidently believed they could get all they wanted at lower prices, and from the start were quite indifferent. Finally, however, with the average just a shade lower than yesterday and the extreme 21/2c higher, the trading was active and a good clearance was made in good season. The close was steady at current prices of the day.

competition from the Eastern trade the

market for all good drivers, chunks, heavy

horses and coachers was active at strong

prices, compared with last week. Common

to medium offerings and Southern stock

moved slowly at barely steady prices. High

class harness horses were reported as high

as \$285 per head; quite a number sold

around \$200@250, but for the kind generally

classed as good \$175 was practically the

top. All were sold and the market closed
